STUART SHAW BURIED IN TEMPLE MONDAY

Stuart Shaw, prominent Temple printer and one time owner of a print shop here, died at 5:45 o'clock yesterday at his home at 613 North Sixth Street after an illness of several months.

Mr. Shaw was active in civic affairs, especially in the interest of labor, and was a member of the Temple Typographical Union, of which he was secretary for 15 years. The local organization presented him a life membership in the organization. He was elected a delegate to the International convention this year. He was a member of the Temple band for a number of years.

Mr. Shaw was the son of the late Captain W. S. Shaw. He was born Sept. 14, 1874 and lived most of his life here. He was married in December 1914 to Miss Floy McLane of Cameron. She survives him. A brother, R. C. Shaw of Galveston, and a sister, Mrs. A. L. E. Barham of Temple, and a sister-in-law, Mrs. Jack Thomas of San Marcos, also survive. Funeral services were held at 3 p. m. Monday from Wright's funeral home with Rev. Michael MarYosip pastor of the First Presbyterian church in charge. Interment in Hillcrest.—Temple Telegram.

Mr. and Mrs. James McLean are entertaining a fine young son that arrived in their home Friday afternoon, July 21. He weighed 10-14 pounds and has been named Billie Dean.

ADDED STRENGTH GIVEN TO FIRST NATIONAL BANK

Under charter granted by the Comptroller of the Currency in Washington the First National Bank in Cameron has purchased the sound assets of the old institution and on July 21 began business under the new permit.

The bank assumes all liabilities to depositors and officers and directors announce that the Bank is in a position of complete financial strength and with its affairs approved and commended by the Federal Government.

Of especial interest to depositors and the public was the improved financial position of the bank by receipt of \$60,000 in cash to replace assets formerly carried in real estate and doubtful loans.

It will be seen from the statement issued by the bank and carried in this edition that the sum of \$28,473.62 has been eliminated from the loans and the sum of \$32,417.57 representing real estate or farm lands, has been taken out. These two items aggregating \$60,000 and more have been replaced with cash. In addition all other liquid and approved assets of the old bank are carried forward under the new charter.

To further improve the liquid and financial condition of the bank the item of furniture and fixtures carried on the books at \$29,766.31 have been reduced to \$1.00 a value so far out of proportion to real value of the fixtures as to give added strength to the bank.

The building which has been carried at \$45,130.09 has been reduced ten per cent or \$10,130.09 an dis now carried at \$35,000 which represents less than half its real value.

Under the new and improved conditions the bank begins its affairs in accordance with every demand of the United States Government for safe and solvent banks.

No Orders Received To Plow Up Cotton

Geo Banzhaf, county agent, was conducting a meeting at 3 p. m. today explaining emergency permits to the leaders in the cotton plow up program. So far no permits have been received or issued to plow up cotton.

Mr. Banzhaf said that about 45,000 acres had been plowed. Permits to plow up acreage will be issued just as soon as they are received from Washington. They are expected in the next three days.

MODERN SOUND THEATER IS UNDER CONSTRUCTION

Construction was proceeding rapidly this week on a new and modern motion picture theatre for Cameron with the latest sound equipment.

The building formerly occupied by the Wonderland Theatre has been purchased by Stanley H. Swift of the Swift Theatres, Inc. and the contract let for the new modern picture house.

Mr. Swift will continue to operate the Milam and is building the new house to give the city a modern show place. It will be air cooled with air changing every two minutes in the building. The latest type of sound equipment will be installed.

The architecture of the building is Spanish in design. The outer lobby will be tile. The second lobby will occupy a space across the entire building with a stair way leading to the balcony. It will be one of the most modern sound picture theatres in the state.

Mr. Swift has not yet selected a name for the new play house and may ask patrons of the theatre to send in suggestions for a name.

A more detailed description of the new theatre will be published on receipt of architect's drawings to be printed.

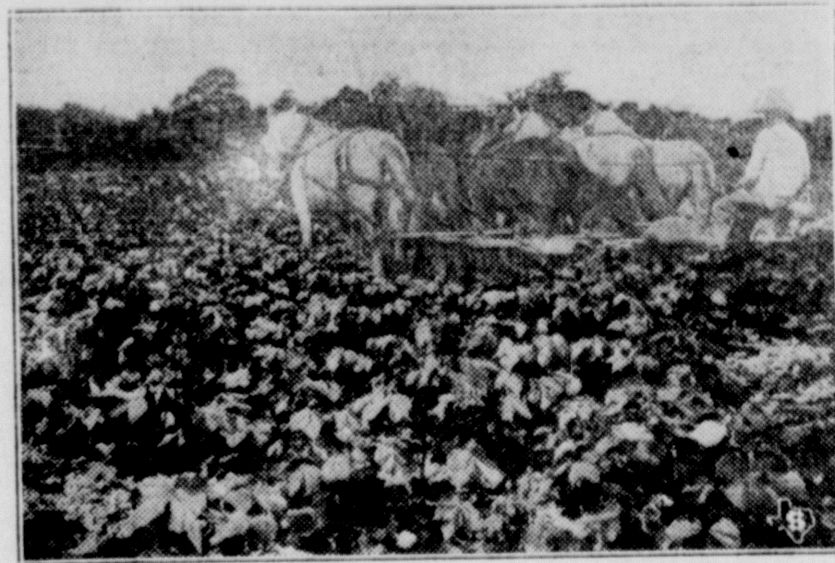

J. F. Brown and J. L. Barmore have let the contract for the building.

TO OUR FRIENDS

We take this method to thank all of our friends who have shown us so much kindness during our recovery from our accident. Especially do we thank you for the beautiful flowers you brought to us during our recovery. May the blessing of God ever be upon you.

Mr. and Mrs. F. F. Reid.

Familiar Scene as Destroying Cotton Begins

This will be a common scene all over Texas this week, as farmers begin to plow under more than 4,000,000 acres of cotton in compliance with the Federal Cotton Reduction program. About one-third of the cotton now standing in Texas will be plowed under. The Texas farmers will gain approximately \$40,000,000 from the government by this procedure, inaugurated to do away with the great national cotton surplus and raise cotton prices.

ROGERS YOUTH BILLED IN NIGHT SHOOTING

BELTON—Harry Rogers, Bell county youth, was indicted by a Milam county grand jury for murder this week, the charge arising from the shooting of Garnet Bearden near Rogers on the night of May 26. The shooting occurred in Milam county, a few miles south-east of the town of Rogers, when two parties of young people met on a public road.

Arrested Same Night

Rogers was arrested on the night of the shooting and was brought to Belton and placed in the county jail, but the venue of the case was given to Milam county by District Attorney Henry Taylor when he learned that the alleged crime occurred in Milam county. Rogers was removed to Cameron on May 17, and was released on bond a few days later, after an examining trial was held in Cameron.

Bearden was removed to a Temple hospital after the shooting and died on the afternoon of the next day.

The shooting and the incidents leading up to it were witnessed by several young men and girls who were accompanying them to a dance in that vicinity, and a large number of witnesses were summoned from Rogers to testify before the grand jury at Cameron, which investigated the case.

CONGRESSMAN BAILEY SPEAKS HERE AUG. 14

Joseph W. Bailey, Jr. will speak in Cameron on the Court House lawn Monday evening, August 14, at 8 o'clock. He will speak in favor of Repeal of the 18th amendment.

Congressman Bailey is a very able speaker and will bring a message to the people of Milam county concerning this important question that will be voted on August 26.

Pending August Election is Discussed by Senator Poage

In view of the apparent lack of information as to the present status of liquor regulation in this country and as to the pending elections in regard to the subject, I have thought it might be of interest to briefly review the situation.

We have in this county at least five different legal barriers prohibiting the sale of intoxicants:

First, there is the County-wide local option prohibition. This was voted by the people of Milam county in December, 1917, and makes illegal the sale of any intoxicant within the county. In most of this county there also exists precinct local option prohibition which was also voted by the people themselves.

Next, there is the State Constitutional provision, which is Article 16, Section 20 of the State Constitution and was adopted by a vote of the people of the entire state on May 24th, 1919.

Third, there is the state Enforcement Law passed pursuant to the Constitutional Amendment, and generally known as the Dean Law.

Fourth, there is the 18th Amendment to the Federal Constitution, effective January 29th, 1920, after

COUNTY BOARD SET UP TO ADMINISTER RELIEF

The County Board of Welfare and Employment was inaugurated here Monday, when C. P. Rogers, field representative for the 11th District, held a conference with all precinct chairmen and the newly elected board members.

Mr. Rogers said that the administration of relief work in Milam County had been well directed and he found the records in excellent condition. No county in Texas has equaled this record he said.

J. P. Love, who has been chairman of the Milam County Relief Association, has been named County Administrator and there will be no change in the administration of the relief work.

The Commission of five men is required by federal regulations and they are to act in the capacity of an advisory committee to the state commission and to the administrator.

The Commission: J. B. White, Chairman; Giles L. Avriett, H. C. Meyer, Rockdale; O. C. Nolte, Ben Arnold; Chas. Saller, Thorndale.

Stanton Dossett Heads Country Club For Year

Stanton E. Dossett has been elected President of the Cameron Country Club for the next fiscal year. He has been a leading member of the Club for a number of years and his selection as President will bring to the position an active interest in the welfare of the club.

John B. Henderson was elected Vice President of the Club and Bassett Watson, Secretary and Treasurer, was re-elected to that position. Mr. Watson has been efficient and loyal to the interests of the club and the membership wished to continue him in that place.

Miss Winnie Henderson joined Mrs. Law Henderson and daughter, Miss Katherine Henderson, in Bryan last week and left for Chicago where they are enjoying the World Fair.

STATE SCHOOL PLIGHT IS DISCUSSED HERE

W. A. Morrison, member of the State Board of Education, received Dr. Oberholtzer of Houston, superintendent of City schools of that city, in conference on Tuesday afternoon for a discussion of the state apportionment to be made by the board.

Superintendent T. A. Fisher of this city was a third member of the conference. Dr. Oberholtzer wished to consult with Mr. Morrison as to the legality of the latter's contention made at the meeting of the board in Lubbock concerning the apportionment.

Mr. Morrison maintains that while the state is in arrears, the deficiencies of past years cannot be charged against the funds allotted for the present school year's work.

The trip made by Dr. Oberholtzer was to effect harmony and co-operation in the interest of the school situation in the state. Mr. Morrison has the endorsement by letter of Senator Bowers and Mr. Washer of San Antonio, chairman of the State Board of Education, and other educators of the state.

A meeting of the State Board will be held in Austin beginning on Monday, July 31, and at the same time the comptroller is expected to submit his certificate of estimate, which, however, has not yet been made, and the attorney general has not yet rendered an opinion asked for by the State Board as to what can and will be done to relieve the school situation.

Representatives of all school interests in the state are expected to be at the meeting of the board and conferences are already beginning to assemble.

The early proposed apportionment of \$8.50 per capita will probably be raised to \$15.00 if the state makes a ruling favoring the suggestion made by Mr. Morrison.

CITY PREPARES TO AID IN RECOVERY MOVEMENT

Cameron was preparing for a city wide meeting at the Court House at 5 o'clock this afternoon to map out a course of action to co-operate with President Roosevelt in his plan to reduce working hours and to increase employment and wages.

The Chamber of Commerce and the Retail Merchants Association were jointly calling the meeting. It was believed an organization would be perfected with a central committee to represent all phases of business here.

Mrs. John S. Owens and Miss Delphya Scott returned last week from Chicago where they attended the World Fair. Miss Scott was a delegate to the Biennial Convention of the National Federation of Business and Professional Women's Club that met there July 8 to 17 inclusive, when five thousand members met, some coming from many foreign countries. Every state in the Union had a representative.

J. M. NOLAN IS BURIED AT BURLINGTON WED

J. M. Nolan, 49, of Burlington, died at a local hospital Tuesday morning July 25, 1933 at one o'clock, following a long period of declining health. He had been in Cameron under treatment for some time prior to his death.

Funeral services were held Wednesday morning at 9 o'clock at the Catholic church in Burlington, with Rev. Father J. Moriarty, reading the impressive rites. Interment was made in the church cemetery with Coleman Undertaking firm of Cameron directing arrangements.

Mr. Nolan was the son of pioneers who came to this section many years ago. He lived for many years in Burlington and was an outstanding citizen of the community. He was known and loved by a host of friends and neighbors and his death brings to that community a deep loss. He was a devout member of the Catholic church.

He is survived by his widow and several children.

MRS. SHEFFIELD, 79, IS FOUND DEAD IN BED

Mrs. Virginia Cullens Sheffield, 79, a native of Milam county, died suddenly early Thursday morning, July 27th, at the home of her daughter, Mrs. R. H. Johnson, who found her dead in bed, having passed away a few hours before. Mrs. Sheffield was in her usual good health when she retired Wednesday evening.

The funeral will be held some time Friday at Power's Chapel where she held her church membership, with interment in Power's Chapel cemetery.

Mrs. Seibert and Mrs. Lawhorn, who have been guests of Mrs. Alex Triggs, have returned to their home in Houston. While here they were recipients of a number of social courtesies.

When President's Son Wed Ft. Worth Girl

Here is the former Ruth Googins, Fort Worth society girl, gazing happily into the smiling eyes of Elliott Roosevelt, son of President Franklin D. Roosevelt and now her husband. They were married last Saturday in Burlington, Iowa, on the estate of the bride's uncle, overlooking the Mississippi river. Immediately following the wedding, the couple left for Fort Worth, arriving there Sunday night to remain four days before going to Los Angeles to make their home. The marriage followed a whirlwind romance. No pictures were taken of the wedding, one photographer being arrested and his camera plates smashed. This photo was posed the day of the wedding.

J. A. Peel, Pioneer Milam County Resident, Dies at Port Sullivan; Was Heroic Southern Patriot

(Hearne Democrat)

The death of Mr. J. A. Peel, which occurred at the family home at Port Sullivan at 3:30 a. m., July fifteenth, saddened many friends and acquaintances as well as a large family connection.

Mr. Peel had been in ill health for two years and his death was not unexpected. Members of his family living in distant localities had been called to his bedside some hours before the end came.

Funeral services were conducted at the home Sunday afternoon at 3:00 o'clock by Reverend A. A. Wagnon of Marlin, former pastor of the Hearne Methodist church and warm personal friend of the decedent. Rev. C. E. Bullock, pastor of the Hearne Baptist church, offered prayer during the final rites and members of the Methodist choir sang "In the Garden" and "Nearer My God to Thee." Scriptural passages read during the sacred service were particularly appropriate and comforting.

Among the floral offerings, profuse and beautiful, was one of exquisite loveliness sent by the Stewards of the Hearne Methodist church. Mr. Peel had been a co-worker with that body for twenty years, and was

functioning in that capacity up to the time of his fatal illness.

Rev. Wagnon's tribute to his friend was touchingly delivered in the presence of a concourse of citizens from Port Sullivan, Maysfield, Cameron, Calvert, Branchville, Gause and Hearne.

Interment Port Sullivan

Following the funeral service, the body was taken in charge by J. B. Creed of the Creed Funeral Home, who officiated in arrangement at the Port Sullivan cemetery, where commitment was made. Everett Peel, Archie Peel, Jr., Edwin Peel, Talmadge Self, Jim Arnold, Whitley, Carr Peel, grandsons of decedent, and Donald McLeary and Ewing Newton, grand-sons-in-law, served as pallbearers.

Pioneer in Texas

The death of James Archibald Peel at the age of 81 years, 6 months and 21 days, marked the passing of a pioneer who had, with faith and hope in the future of the Lone Star state, cast his lot within her borders in his young manhood.

Born of Southern parentage in Choctaw county, Alabama, during the troublous days preceding the Civil War, young Peel moved to Mississippi in childhood, and in that state spent part of the trying reconstruction period.

In the early 70's he came to Texas settling at Port Sullivan, which for many years was an important town on the Brazos, which was then navigable to that point, and the site of a co-educational college.

The fertile soil was attractive to Mr. Peel's farming instincts, and he soon entered into the routine of the life of a planter, acquiring, as time went on, extensive property interests.

Home Established on Brazos

Following his marriage to Miss Rosella Hobbs of Milam county, Mr. Peel built a home on the banks of the Brazos, where the Port Sullivan College stood in the palmy days of the town.

Here the two reared a family of seven sons and three daughters and here they continued to reside until 1922 when the flood stage of the river drove them to higher ground of their plantation.

Prominent in Church Affairs

Having allied themselves with the Methodist church in early life, Mr. and Mrs. Peel were proud to have their home known for its hospitality and Christian influence.

As the head of the household "Ben Peel," as he was known by many because of his Christian life of precept and example, never lost an opportunity to do good, and the church of his community knew him as an untiring worker.

When the Union church at Port Sullivan was abandoned because of depleted population of the town, Mr. and Mrs. Peel moved their membership to the Hearne church and had since been valued members.

When the new church was built in 1929 their contribution was among the first and most generous of the building fund.

Since the breaking down of Mr. Peel's health, he and Mrs. Peel have been greatly missed, not only in the church but civic affairs of the community.

With the bereaved widow are the sympathetic thoughts of many whose lives were made better by contact with the good man she chose as her life companion.

Other survivors are seven sons, Archie, Frank and Howell of Port Sullivan; Dan of Mount Pleasant; Tom of Dallas; Stoddard of Maysfield and Bryan of Houston; three daughters, Mrs. L. T. Self of Hearne; Mrs. J. A. Whitley of Port Sullivan and Mrs. V. H. Bryan of Houston, thirty grandchildren and five great-grandchildren.

Of the thirty grandchildren, Homer Peel, of New York City, Mrs. C. A. Sawyer of Chicago, Beverly Peel, of Dallas, Emma Jane Peel and Hosea Bryan Peel of Houston and Jim Peel Self of Flagstaff, Arizona, were the only ones unable to be present for the last rites. A sister of Mr. Peel's, Mrs. Henry Brewer of Meridian, Mississippi, was also unable to join the family circle.

Chicago Gang Tactics Used on Beer Parlors

Regular Chicago beer gangster war tactics were used on two San Antonio beer parlors last week when eight charges of buckshot shattered their plate glass windows. Police say the attack doubtless was made by the beer ring in an attempt to keep the price of 32 beer up to 25 cents. Both places had been selling it at 20 cents. This cafe now has a new sign: "32 STILL 20c."

COMETS ELIMINATED FROM LEAGUE RACE

Defeats spelled "finis" to the championship hopes of the Cameron Comets and the Killean Scorpions Sunday and left the sectional issues up to the Temple Surgeons and Sparks Sparklers in one bracket and the Westphalia Farmers and the Rosebud Roses in the other.

Rosebud squelched Comet chances Sunday by an 8 to 5 victory before an overflow crowd at Cameron.

Temple outscored Killean's scrappy Scorpions 12 to 2.

Westphalia went into a tie with Rosebud for the eastern section leadership with a double-header victory over the Ben Arnold Cowboys, 7 to 1 and 12 to 1.

Thorndale defeated the Cameron Sluggers 7 to 5 at Thorndale and Troy defeated Airville 7 to 5 in other championship division bouts.

Sparks drew a forfeit from Armstrong but the Armstrong team an-

Fox Hounds Stolen From District Clerk

Three fox hounds from the kennels of Penn Wolf, district clerk, have not been returned following their loan to a man who wanted to "buy them."

This week a man who was camping near Sharpe with a number of Milam county men, asked the District Clerk to permit him to test out the dogs because he wanted to buy them. The dogs were used for a hunt for one night and since then the man and dogs have been missing.

Mr. Wolf's kennels are known over America and he has raised some of the best fox hounds known to the world. He is making every effort to regain the hounds stolen from him.

Mrs. John S. Owens returned to her home in Brownwood last week after a few weeks absence.

Texas and the New Deal

TO TAKE THE NEW DEAL out of the realm of criticism and bring its full import to bear upon the practical matters of life is a duty and a privilege peculiarly incumbent upon Texans. The new National Policies are so comprehensive that they affect the aspirations, the feelings and the faiths of all. But more particularly do they affect our livings.

We cannot all at once absorb and digest the potencies and ramifications of the changed conditions, but we of Texas need not doubt that our State, foremost of all, stands to gain a new prosperity out of the new departures. We produce the primary materials from which are manufactured the comforts and necessities of civilized living the world over. Our State stands far out in front of all the other exporting grand divisions, having last year surpassed New York in the value of commodities and merchandise shipped out of our ports. It behooves Texas to continue to knock at the door of commerce and trade in the world markets. We send our cotton, our wool, our livestock, our hides, our green vegetables, our cured meats, our sulphur, our petroleum, our vegetable oil, our grain, our lumber to all the other States and to fifty foreign countries. We are gaining in the volume of our finished goods, and in producing and distributing our saleable values we are giving employment and wages to an industrious and capable working population. We are gathering new strength after an unwonted period of weakness.

It is gratifying to the millions of loyal Texans that Texas is to have an adequate exhibit at the Century of Progress Exposition at Chicago. The statistical position of Texas is beyond the questioning of the querulous. But statistics are arid things, often skipped by the casual reader. At the Century of Progress Exposition, with the autumn months yet to send their throngs, Texas will have a graphic display of values in proof of its premier position, and many thousands will be visually assured that what Texas claims is what Texas proves.

The full measure of results to be gathered from recent far-reaching legislation cannot be taken all at once. But there is a new expectation, a new courage, a new hope in the American people, and more consideration for the durable virtues of brotherly love and sincerity. Texas offers fair and just rewards to all those who wish to live fairly and deal justly.

While many of us are unable fully to comprehend the effects and results of the far-reaching legislation which has been enacted, we nevertheless, as good citizens, should co-operate to the best of our ability with our governmental agencies.

TEXANS, LET'S TALK TEXAS!

been a vote by the people of Texas on this question, the Legislature could, and undoubtedly would, have legalized the sale of beer in this State, but the people are superior to the Legislature, and your representatives cannot undo what the people themselves have done. It was, therefore, necessary in Texas that a change in the State Constitution be submitted to the people before the sale of 3.2 beer could be legalized in this State.

It is likewise necessary in Milam county that the people in a county-wide election revoke their action of 1917 before any such sale can be made in the county. And in most of the precincts of the county, it will be necessary for the voters of such territory to rescind their previous action. It has always been the writer's belief that the people had a right to do as they pleased with such matters, and he, therefore, as your Senator, voted to set up the machinery for the holding of elections on August 26th for all of these purposes. At that time, the people of this County vote:

(1) On the repeal of the local option prohibition against the sale of beer within the County, and in a large part of the County on repeal of precinct dry laws as well.

(2) On the modification of the State Constitution so as to expressly authorize the sale of 3.2 beer, and,

(3) On the selection of delegates to a state convention to repeal the 18th amendment to the Federal Constitution.

The Legislature has already passed a bill amending the Dean Law, so as to allow the sale of beer, as soon as the State Constitution is amended. This bill carries the emergency clause, and is effective on September 15th or as soon as the result of the election can be determined. It will, therefore enable the people of this State and County to effect a legal change in their liquor laws more quickly, than any other method would have done. A test vote in the House of Representatives had already shown that no bill simply attempting to declare 3.2 beer non-intoxicating could have been made effective before the 2nd day of September (90 days after adjournment), and had such a measure been passed without any constitutional change, it would, in all probability, in view of the holding of our court of Criminal Appeals in the case of *Torrance vs. State*, 18 S. W. (2d) 179, and the cases following this decision, have

been held void by the Courts and another two years would have had to elapse before the people would have had opportunity to express themselves on the subject as amendments to our state constitution can only be submitted at regular Sessions of the Legislature. Nor could the State have taxed beer as an intoxicant had it been declared non-intoxicating, and this would have resulted in a substantial loss of revenue that is badly needed. Thus it is apparent that instead of trying to deny the people the right to legalize the sale of beer, the Legislature sought to settle the matter in the only constitutional manner, that is by the determination of the people themselves at the earliest possible date, and this determination of the people themselves will take place at the ballot box on August 26th.

There are those who felt that the election should have been called for an earlier date, and indeed this writer held such a view until it was pointed out that under the peculiar provisions of our Constitution it was necessary that the proposed amendment be advertised in a newspaper in every county in Texas at least ninety days prior to the election. It was evident that to attempt to hold

Use This Laxative made from plants

THEFORD'S BLACK-DRAUGHT is made from plants that come up from seeds and grow in the ground, like the garden vegetables you eat at every meal. the election in July would probably jeopardize the validity of the entire undertaking; hence the delay that what was done might stand after it was done. I am advised the Oklahoma Constitution contains no such requirement, thus enabling the State to hold its election at an earlier date than Texas.

The proposal was also made that we allow all citizens to vote or at

least qualify for voting by paying a poll tax before the election time and this seemed at first glance a fair and proper procedure, but again we ran counter to the Constitution, which declares in Article 6, Section 2, that before a citizen shall be allowed to vote he shall "hold a receipt showing that said poll tax was paid before the first day of February next preceding such election." This seems to clearly prohibit the Legislature from extending the franchise at this time and the whole question will have to be settled by those who now hold poll tax receipts and those who are entitled to exemptions.

There will, of course, at the same time that the election is held on the above matter, be an election on the matter of issuing twenty million dollars of State Bonds for some rather ill defined species of relief, as well as an election on the authorization of the so-called County Manager form of government, including the authority on the part of the Cities and other Taxing Districts to spread their bonded indebtedness over the entire County, and the voter should keep clearly in mind that these two amendments are purely fiscal in their nature, and have nothing to

do with the liquor question, and he should not, therefore, unless he favors these last two amendments, vote FOR all of the proposition submitted on August 26th.

WOMEN! Get rid of the handicaps of a weak, debilitated condition with the assistance of Cardui.

Mrs. R. L. West, of Huntsville, Ala., writes: "I was weak and run-down. I had a pain in my side, and I kept losing weight. I grew nervous over my condition—this was unusual for me, for I am very cheerful when I am well and don't easily get nervous. I knew I ought to take something. My aunt told me I ought to try Cardui, which I did. I began to feel better. I kept it up until I had taken three or four bottles. My side quit hurting and I was soon feeling strong and well."

STRANGE fact about the tire business is — the PRICE of all tires is about alike. You might as well pick the best—in quality, in safety, in mileage.

What's the best in quality? The public says Goodyear—preferred by more people than any THREE other makes.

What's the best in safety? Accurate tests on wet concrete show Goodyears will stop a car quicker than any other tire. The next best tire skidded 10% more—other tires skidded up to 77% more under exactly the same conditions.

What's the best in mileage? Bus fleet records show Goodyear Tires give 97% more mileage than they gave five years ago.

Now that all prices are headed UP—it's more important than ever to get the most for your money. Better look over your tires and buy new Goodyears now while prices are still low.

Killed by Dallas Negro

A negro arrested Saturday for killing a Dallas policeman, Sam Lanford, (right) confessed to the murder of Mrs. H. K. Buchanan (left) last December. He also confessed to the shooting of George Coffey, who found the negro prowling in his home, and to the robbery of a number of other homes. The death by strangulation of Mrs. Buchanan, whose nude body was found in her apartment with her stockings tied tightly around her neck, was one of the sensational murder mysteries of the year. The negro, R. T. Bennett, 25, is an ex-convict and a graduate of the Booker T. Washington high school. The policeman was shot and killed when he frustrated a robbery.

**Elliott Roosevelt
Marries Texas Girl
At Iowa Ceremony**

Burlington, Iowa—Atop a towering bluff swept by breezes from the broad Mississippi, Elliott Roosevelt, son of the president of the United States, was married tonight to Ruth Josephine Goggin of Fort Worth, Texas.

The double ring ceremony was read in the flower bordered rock garden on the river bank estate of Mr. and Mrs. George C. Swiller, uncle and aunt of the bride, by the Rev. Naboth Osborne, retired Congregational minister.

Young Roosevelt's marriage followed by only five days his divorce from Elizabeth Browning Donner at Minden, Nev. It was Miss Goggin's first marriage.

The couple left Burlington by automobile presumably for Fort Madison, Iowa, a few hours after the ceremony. They were to board a Santa Fe train there for Fort Worth, Texas, the bride's home, before continuing on to California.

Mrs. A. L. Peterson of Waco, was a week end guest of her parents, Mr. and Mrs. Henry Ruby.

and Fever!****Rid Your System of Malaria!**

Shivering with chills one moment and burning with fever the next—that's one of the effects of Malaria. Unless checked, the disease will do serious harm to your health. Malaria, a blood infection, calls for two things. First, destroying the infection in the blood. Second, building up the blood to overcome the effects of the disease and to fortify against further attack.

Grove's Tasteless Chill Tonic supplies both these effects. It contains tasteless quinine, which kills the infection in the blood, and iron, which enriches and builds up the blood. Chills and fever soon stop and you are restored to health and comfort. For half a century, Grove's Tasteless Chill Tonic has been sure relief for Malaria. It is just as useful, too, as a general tonic for old and young. Pleasant to take and absolutely harmless. Safe to give children. Get a bottle at any store.

Answering questions raised by Taylor, Hooper held the act is now in effect to the extent that commissioners courts may order a local option election on Aug. 26.

Dearborn, Mich.***IN ANSWER TO A LADY'S LETTER**

A lady writes to say that she does not understand why an 8-cylinder car does not cost more to run than a car with fewer cylinders. She refers to my statement that our Ford V-8 develops more power on a gallon of gas than any car we have made.

The use of 8-cylinders does not mean the addition of two or four extra fuel consumers. It is not, for example, a 4-cylinder engine multiplied by two. Our 8-cylinder engine takes the fuel supply of an ordinary 4-cylinder engine and divides it eight ways. And why?By reducing four larger explosions into eight smaller ones, we get engine smoothness and quietness. Eight-cylinders indicate the way the gas is used, not the amount. It is just the difference between going upstairs in four long jumps or in eight ordinary steps.

Two things use up gas—bad engine design and useless car weight. Besides having an engine that gets a high percentage of power out of the fuel, the Ford V-8 has a light, strong body and chassis so that no power is wasted in moving excess weight.

The only extravagance about the new Ford V-8 engine is in the building of it. The extravagance is ours—the economy is yours.

The whole question of car economy needs clearing up. An economical car gives economy all round. Price, operation, upkeep, all play their part. If what you save on gas you lose elsewhere, that is not economy.

As to upkeep, our dealers say that in recent years the improved quality of Ford cars has cut down their repair business 50 per cent.

As to price with quality,—judge for yourself.

As to economy, here is the record of a stock car three weeks out of shop in Oklahoma:

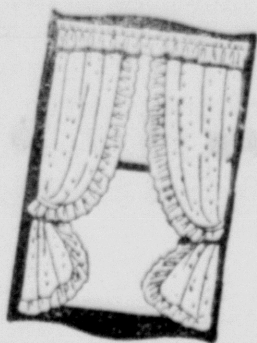

On a run of 10,054 miles at the rate of 1,000 miles a day—the Ford V-8 gave 18.8 miles per gallon of gas. Not a drop of water was added to the radiator. The oil was changed once in 1,000 miles.

That should answer a lot of questions.

**Stop Chills
and Fever!****Rid Your System of Malaria!**

Shivering with chills one moment and burning with fever the next—that's one of the effects of Malaria. Unless checked, the disease will do serious harm to your health. Malaria, a blood infection, calls for two things. First, destroying the infection in the blood. Second, building up the blood to overcome the effects of the disease and to fortify against further attack.

Grove's Tasteless Chill Tonic supplies both these effects. It contains tasteless quinine, which kills the infection in the blood, and iron, which enriches and builds up the blood. Chills and fever soon stop and you are restored to health and comfort. For half a century, Grove's Tasteless Chill Tonic has been sure relief for Malaria. It is just as useful, too, as a general tonic for old and young. Pleasant to take and absolutely harmless. Safe to give children. Get a bottle at any store.

A lady writes to say that she does not understand why an 8-cylinder car does not cost more to run than a car with fewer cylinders. She refers to my statement that our Ford V-8 develops more power on a gallon of gas than any car we have made.

The use of 8-cylinders does not mean the addition of two or four extra fuel consumers. It is not, for example, a 4-cylinder engine multiplied by two. Our 8-cylinder engine takes the fuel supply of an ordinary 4-cylinder engine and divides it eight ways. And why?

By reducing four larger explosions into eight smaller ones, we get engine smoothness and quietness. Eight-cylinders indicate the way the gas is used, not the amount. It is just the difference between going upstairs in four long jumps or in eight ordinary steps.

Two things use up gas—bad engine design and useless car weight. Besides having an engine that gets a high percentage of power out of the fuel, the Ford V-8 has a light, strong body and chassis so that no power is wasted in moving excess weight.

The only extravagance about the new Ford V-8 engine is in the building of it. The extravagance is ours—the economy is yours.

The whole question of car economy needs clearing up. An economical car gives economy all round. Price, operation, upkeep, all play their part. If what you save on gas you lose elsewhere, that is not economy.

As to upkeep, our dealers say that in recent years the improved quality of Ford cars has cut down their repair business 50 per cent.

As to price with quality,—judge for yourself.

As to economy, here is the record of a stock car three weeks out of shop in Oklahoma:

On a run of 10,054 miles at the rate of 1,000 miles a day—the Ford V-8 gave 18.8 miles per gallon of gas. Not a drop of water was added to the radiator. The oil was changed once in 1,000 miles.

That should answer a lot of questions.

Poage

(Continued from page 1)

been a vote by the people of Texas on this question, the Legislature could, and undoubtedly would, have legalized the sale of beer in this State, but the people are superior to the Legislature, and your representatives cannot undo what the people themselves have done. It was, therefore, necessary in Texas that a change in the State Constitution be submitted to the people before the sale of 3.2 beer could be legalized in this State.

It is likewise necessary in Milam county that the people in a county-wide election revoke their action of 1917 before any such sale can be made in the county. And in most of the precincts of the county, it will be necessary for the voters of such territory to rescind their previous action. It has always been the writer's belief that the people had a right to do as they pleased with such matters, and he, therefore, as your Senator, voted to set up the machinery for the holding of elections on August 26th for all of these purposes. At that time, the people of this County vote:

(1) On the repeal of the local option prohibition against the sale of beer within the County, and in a large part of the County on repeal of precinct dry laws as well.

(2) On the modification of the State Constitution so as to expressly authorize the sale of 3.2 beer, and

(3) On the selection of delegates to a state convention to repeal the 18th amendment to the Federal Constitution.

The Legislature has already passed a bill amending the Dean Law, so as to allow the sale of beer, as soon as the State Constitution is amended. This bill carries the emergency clause, and is effective on September 15th or as soon as the result of the election can be determined. It will, therefore, enable the people of this State and County to effect a legal change in their liquor laws more quickly, than any other method would have done. A test vote in the House of Representatives had already shown that no bill simply attempting to declare 3.2 beer non-intoxicating could have been made effective before the 2nd day of September (90 days after adjournment), and had such a measure been passed without any constitutional change, it would, in all probability, in view of the holding of our court of Criminal Appeals in the case of *Torrace vs. State*, 18 S. W. (2d) 179, and the cases following this decision, have

Gainesville Has Only Community Circus in World

been held void by the Courts and another two years would have had to elapse before the people would have had opportunity to express themselves on the subject as amendments to our state constitution can only be submitted at regular Sessions of the Legislature. Nor could the State have taxed beer as an intoxicant had it been declared non-intoxicating, and this would have resulted in a substantial loss of revenue that is badly needed. Thus it is apparent that instead of trying to deny the people the right to legalize the sale of beer, the Legislature sought to settle the matter in the only constitutional manner, that is by the determination of the people themselves at the earliest possible date, and this determination of the people themselves will take place at the ballot box on August 26th.

There are those who felt that the election should have been called for an earlier date, and indeed this writer held such a view until it was pointed out that under the peculiar provisions of our Constitution it was necessary that the proposed amendment be advertised in a newspaper in every county in Texas at least ninety days prior to the election. It was evident that to attempt to hold

the election in July would probably jeopardize the validity of the entire undertaking; hence the delay that what was done might stand after it was done. I am advised the Oklahoma Constitution contains no such requirement, thus enabling the State to hold its election at an earlier date than Texas.

The proposal was also made that we allow all citizens to vote or at

least qualify for voting by paying a poll tax before the election time and this seemed at first glance a fair and proper procedure, but again we ran counter to the Constitution, which declares in Article 6, Section 2, that before a citizen shall be allowed to vote he shall "hold a receipt showing that said poll tax was paid before the first day of February next preceding such election." This seems to clearly prohibit the Legislature from extending the franchise at this time and the whole question will have to be settled by those who now hold poll tax receipts and those who are entitled to exemptions.

There will, of course, at the same time that the election is held on the above matter, be an election on the matter of issuing twenty million dollars of State Bonds for some rather ill defined species of relief, as well as an election on the authorization of the so-called County Manager form of government, including the authority on the part of the Cities and other Taxing Districts to spread their bonded indebtedness over the entire County, and the voter should keep clearly in mind that these two amendments are purely fiscal in their nature, and have nothing to

do with the liquor question, and he should not, therefore, unless he favors these last two amendments, vote FOR all of the propositions submitted on August 26th.

Side Quit Hurting, Got Stronger, Well; CARDUI Helped Her

WOMEN! Get rid of the handicaps of a weak, debilitated condition with the assistance of Cardui.
Mrs. R. L. West, of Huntsville, Ala., writes: "I was weak and run-down. I had a pain in my side, and I kept losing weight. I grew nervous over my condition—this was unusual for me, for I am very cheerful when I am well and don't easily get nervous. I knew I ought to take something. My aunt told me I ought to try Cardui, which I did. I began to feel better. I kept it up until I had taken three or four bottles. My side quit hurting and I was soon feeling strong and well."

Cardui is sold at drug stores here.

STRANGE fact about the tire business is — the PRICE of all tires is about alike. You might as well pick the best—in quality, in safety, in mileage.

What's the best in quality? The public says Goodyear—preferred by more people than any THREE other makes.

What's the best in safety? Accurate tests on wet concrete show Goodyears will stop a car quicker than any other tire. The next best tire skidded 10% more—other tires skidded up to 77% more under exactly the same conditions.

What's the best in mileage? Bus fleet records show Goodyear Tires give 97% more mileage than they gave five years ago.

Now that all prices are headed UP—it's more important than ever to get the most for your money. Better look over your tires now while prices are still low.
